

Water + electricity = danger!

If the flood has not yet started coming into the basement:

Cut the power to the whole house by doing the following:

1. Make sure you aren't standing on a wet floor or leaning on anything made of metal.
2. Flip the main breaker off.

If water has started coming into the basement

Don't touch anything! Call us right away at **1 800 790-2424** to have service interrupted.
